D G Asus  
Every so often I think about you  
Em D/F# G  
And the times we spent and the fun had as one  
D G Asus  
And if only I knew then what I know now  
Em D/F# G  
There are lots of things I think I'd rather have done  
Em D/F# G  
And It's not like I avoid your messages  
Em D/F# G  
I'm just trying hard to forget you ever existed

D  
If I knew you were gonna leave me  
G /F# Em  
I would have grown my hair out  
D  
If I knew you weren't gonna hold me  
G /F# Em  
I would have taken my hand back  
D  
If I knew you weren't gonna kiss me  
G /F# Em Asus D  
I would have dreamt an – oth – er dream

Someday I'll ask if you regret  
The things you said and the things you'd done to me  
And I wonder if I said some things I shouldn't  
Cause you're leaving didn't come too gracefully  
And it's not that I dislike saying your name  
I'd just rather not remember all I lost

If I knew you weren't gonna call me  
I would have turned my phone off  
If I knew you weren't coming over  
I would have gone out fishing  
If I knew you weren't gonna love me  
I would have saved mine for someone else

The time has come to trust another  
Take a chance that it will be better than the last  
And if things go right she'll turn into the mother  
Of our kids and we can go start our own past  
And I'll try to not compare you to what's-her-face  
But if her name slips it shows she's never really left

If I knew you were gonna leave me  
I wouldn't have even bothered  
If I knew you weren't gonna love me  
I wouldn't have given mine so quickly  
If I knew you weren't gonna marry me  
I would have gotten out long ago
